Fawaz Haroun

Lagos, Nigeria.
+234 806-208-5618
harounayomikun@gmail.com

A driven software engineer with experience in building resilient software while documenting processes.

EXPERIENCE

Software Engineer, Paystack (A Stripe Company)

- Member of the processing team to work on issuing and third party integrations.

Software Engineer, Allawee Inc

- Designed and Built the Customer Relationship Management (CRM) tool used by administrators to manage customers, resolve complaints, and keep track of important business insights.
- Built services as part of a mono-repo, such as an internal url shortener tool, cronjobs, and webhooks to save third-party data.
- Implemented server and client gRPC integration with protobufs in JavaScript and Go for faster communication between different services in our mono-repo.
- Worked on email template development with sendgrid and implemented automated email delivery with the sendgrid API.
- Wrote and built the website for external documentation to help engineers integrate our API services into their system.

EDUCATION

University of Lagos — *Bachelor of Laws*

2017 - 2023
